Equipped with the same technology as Vectorfog's flagship fogger, the C150+, but with a slightly smaller tank capacity. The C100+ can spray up to 8 meters, at an angle of up to 80°, allowing you to cover an area of 100 square meters in less than a minute. This makes it ideal for applying pesticides, disinfectants, herbicides, fungicides and odor neutralizers in medium to large-sized locations.
