(3) GLUE SHEETS

(2) UV LAMPS
(36W)

2. Product Specifications

Feature	Specification
Model	T21
Glue Board Material	Polyisobutylene + Hydrocarbon Resin
Voltage	(110V or 220V 60Hz (72W))
Coverage	66 sqm. (840 sq ft.)
Size	8.9×12.2×4.3 in (480×310×110mm)
Weight	6lb (2.8kg)

Benefits

- 1. Acts as a monitoring device to detect signs of insects that may carry diseases or cause harm.
- 2. Uses UV light to attract insects, while the non-toxic adhesive backing traps them in the device.
- 3. Efficient and quiet operation. Can be left on for long periods of time.

PLEASE READ THIS MANUAL
BEFORE OPERATING

This product is manufactured in accordance with quality standards, passing rigorous tests including electrical safety, temperature, humidity, dust, and drop test.

PRECAUTIONS

- 1. Always hold the power plug when disconnecting the device from the power source. (If the power cord is damaged, there is a risk of fire.)
- 2. Make sure to unplug before cleaning inside of the product.
- 3. Keep away from children and pets, as well as areas of moisture.

3. How to Install Device

Plug the device in for 24 hours before turning on.

1

Remove the front cover

Lift sides of the cover gently and insert pieces into slits located on the side of the device.

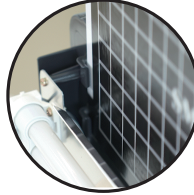

2

Insert lamps into device

Remove lamps from the provided box and fit firmly into the socket.

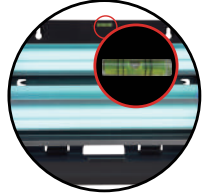

3

Insert Glue Sheets

Remove film and place large glue sheet sticky side up. Insert smaller glue sheet into tray on the device's base. Attach front cover.

4

Drill holes using built-in level

Screw in provided screws into plastic anchors and hang device. Wrap extra cord around the hooks on the backside.

4. Replacing the Glue Sheet

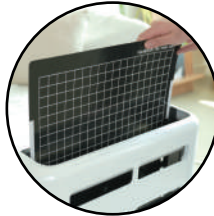

1

Remove protective film

Remove the protective film from the glue sheets.

2

Insert front glue sheet

Remove the used front glue sheet. Insert new one with the black grid side facing outwards.

3

Insert bottom glue sheet.

Lift the cover gently and slide the bottom glue sheet tray out. Place bottom glue sheet on tray sticky side up.

5. Product Maintenance

Please Note:

1. This product is for indoor use only. Install product 1.5m-2m (5-8ft) above the floor.
2. Glue sheets should be replaced either once or twice a month for optimal performance.
3. Average lifespan of lamp is 5,000 hrs.

LIMITED 1 YEAR WARRANTY

This product's warranty is 12 months from the date of original purchase. Any defect that arises due to faulty materials or workmanship will either be replaced or repaired during this period by the seller or authorized distributor from whom you purchased the unit. Transportation charges or duties may be mandated.

Warranty is subject to the following provisions:

- The warranty does not cover normal wear, accidental damage, misuse, damage or used for a purpose for which it is not designed; altered in any way; or subjected to any but the specified voltage if applicable.
- The warranty will be void if the product is resold, fitted with non-original spare parts, or damaged by unauthorized repair.
- Specifications are subject to change without notice. The manufacturer disclaims any liability for the incidental or consequential damages.
- In the event of a problem with the product within the warranty period, please call our customer service line listed below or email us info@vectorfog.com with any questions you may have.
